OUR PRODUCTS

ScyTek Laboratories routinely manufactures bulk reagents from an encompassing product line of general laboratory reagents and products for the hospital and pathology laboratory setting. All products go through rigorous quality control procedures to assure end-user performance and minimal lot-to-lot variability.

Developed products include:

- Biological buffers
- Reagents for Immunohistochemistry (antibodies, diluents, chromogens, ancillaries, detection systems)
- Special Stains
- Reagents for Cytology, Hematology, and Microbiology.
- ELISA Reagents
- Ready-to-use Kits
- Custom Products

OUR COMMITMENT TO QUALITY: CUSTOMER FIRST

Visit ScyTek.com for our entire catalog of products. Looking to add one of these products to your product line? ScyTek Laboratories specializes in setting up custom OEM relationships where you can easily market one of our products. ScyTek Laboratories also performs custom reagent formulation and manufacturing service.
